

St. Joseph's Paterson FAQ by Karen McCollum who drove others for their vaccination at this site:
SJH Covid-19 Vaccination Site
515 Marshall St. Paterson, NJ 07503

Where do I park? The main parking lot is behind the entrance to the vaccination center, but I know there is parking also in the front of the building closer to the door. When you put the above address into your nav, it will direct you to the rear parking lot. Then, you have to walk on the paved path around the building to the front entrance.

To park in the front lot, I was told by another person who has been there that you drive past the building to the traffic light, turn left, and then turn left into the front parking lot.

NOTE: This facility is a school and the vaccines are administered in the large gym.

What if I have mobility issues? Although I waited in my car for the people I drove over for their vaccines, those folks told me that the entrance is wheelchair accessible and they recall seeing St. Joe's staff helping them.

General review of the vaccination process

- When we arrived, there was no line outside. They were able to walk right in.
- You will walk into a big gym (it's a school), and you check in at the front desk. They will ask for your name and send you to another check-in desk
- At the second check-in, they check your license. They did not ask for insurance cards.
- After that, they direct you to a table where a nurse administers the vaccine. The vaccine was Pfizer.
- Then you are directed to another area in the gym (with seats that are socially distanced) and sit/wait for 15 minutes to make sure of no immediate reaction to the vaccine. And that's it. Done!

You will receive an email the same day (or perhaps the next day) with your second shot appointment. If you do not receive this email or need to reschedule the second shot, you can contact them at this email address:

vaccinecancellations@sjhmc.org

General information

- **Everyone there is friendly and there to help!** The nurses and staff are extremely kind and helpful. Should you have need of a chair or to use the bathroom, you simply need to get their attention and they will gladly assist you.
